Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **An accepted release reaches tens of thousands of people within hours.**

Step	Done by the agent?
Build the release	**Yes**
Write the release notes	**Yes**
List permissions with their justification	**Yes**
Prepare the screenshots	**Yes**
Upload	**No**
Submit	**No**
Reply to a rejection	**No**

> **One button remains, and it is yours.** It is the only thing the agent does not do in the whole release chain, and it is the one that binds.

What the prior check avoided

Point flagged	Would have earned
Permission with no written justification	**A rejection**
Screenshot showing a removed feature	**A rejection**

A store rejection costs one to two weeks, and it leaves a trace on the publisher account.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
