Forty-one per cent on a version over four months old

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **None of the reasons for not updating is fixable from the company's side.**

Age of installed version	Share of users
Current version	**38%**
1 to 4 months	**21%**
4 to 12 months	**29%**
Over 12 months	**12%**

Security fix released 3 months ago	Share
Installed	**62%**
Not installed	**38%**

Why they do not update

Reason	Fixable from the company?
Automatic updates switched off	**No**
Device too old for the new version	**No**
Storage full	**No**
App opened three times a year	**No**

> **On the web, a fixed defect is fixed for everybody at the next visit.** Here it lives on 38% of devices for months, and the only recourse is to make it harmless server-side.

What the agent checks at every change, and would not on a website

Type of change	Breaks the old version?	Flagged
Changed data format	**Yes**	**Always**
Field removed from a response	**Yes**	**Always**
Rule moved server-side	**Yes**	**Always**

Over 12 months	Count
Incompatible changes flagged	**9**
Fixed before release	**7**

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
