Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The three automatic actions are reversible; everything else waits for a word or lives inside a written mandate.**

The three automatic actions

Action	Volume over 2 months	How it is undone
Labelling a message « no action »	5,376	**Reopened in one click; the rule changes, dated**
Taking a resolved point off the agenda	1	**Put back with a word**
Sending one of the three mandated families	**268**	**« stop mandate » — immediate effect**

The mandate in use

Control	Result over two months
Cap of 25 messages a day	**0 breaches**
Automatic exits (amount, contractual date, person's name)	**6** — returned to drafts
Mandate withdrawals requested	0
Log lines read by the director	34

What stays entirely with the director

Area	Why
Price, discount, commercial term	**A price is not information, it is a decision**
Contractual deadline, date commitment	It commits the company towards a third party
Decision touching a person	Hiring, discipline, leave: the signature is personal
First exchange with an unknown correspondent	The tone of a first reply sets the relationship
Arbitration of the calendar	The agent prepares and advises; it does not move anything

What the perimeter guarantees you

Indicator	What the perimeter guarantees
Reply time per colleague	**Outside the perimeter — the agent serves one person, on their inbox and their calendar**
Message volume per department	**Outside the perimeter — your departments are not measured from the director's inbox**
Individual working-hour habits	**Outside the perimeter — the director's tool never becomes a monitoring tool**

This is not coyness, it follows from the perimeter: the agent serves one person, on their inbox and their calendar. Measuring the activity of the 62 staff would be a separate project, with the prior information of the people concerned and the consultation of the works council required by French employment law — and it too would be decided in writing.

The technical base, invariant

Point	Commitment
Hosting	**France, local inference or isolated resource**
Transfer outside the European Union	**None**
Cloud Act / FISA 702	**Exposure reduced by design**
Training a third-party model	**No content used**
Short briefing on WhatsApp	**No client name, no amount, no reference**

Next mandate review, date: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
