Endorsement check

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

40 endorsements · 6 inconsistencies · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No endorsement is corrected.** A signed endorsement is corrected by another endorsement: a silent touch-up on a contractual document is worse than the error it repairs.

Endorsement	Policy	Nature of the gap	Severity
A-2026-0217	Home	**Adds cover the wording expressly excludes**	**High**
A-2026-0244	Commercial combined	**Adds cover the wording expressly excludes**	**High**
A-2026-0198	Motor	Excess changed, not carried into the summary table	Medium
A-2026-0231	Home	Excess changed, not carried into the summary table	Medium
A-2026-0256	Motor	Effective date 11 days before signature	Medium
A-2026-0263	Home	Refers to an appendix that is not attached	Low

> **The two excess gaps create two different figures in the same document.** The client will read whichever favours them, and will be right to: that is the rule of construction for standard-form contracts.

Origin of the two serious gaps

Point	Finding
Entry template	The same for both endorsements
Cover offered	In a drop-down list
Compatibility check against the wording	**None**
Drafters	Two different people

Two different drafters producing the same error with the same template: that is not a typing error, it is a tool that permits it.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
