# Extra work — 23 items

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Verne site · fictional document

**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **The sorting is on the supporting document, not on whether the work happened.** A claim is judged not on what was done, but on what can be established.

## Block 1 — covered by a written instruction (9 items, €27,400)

| Date | Item | Amount | Supporting document |
|---|---|---|---|
| 12/03/2026 | Foundation repair, north-east corner | €6,200 | Instruction no. 3 |

> **The eight unwritten items span four months and two site managers.** That is not an oversight, it is a habit — and that finding, more than the €18,400, is what deserves to be read by management.

## What would be opened in future, on your approval

| Trigger | Action | Chase | What stays for your signature |
|---|---|---|---|
| Out-of-contract item booked | An instruction request opens, pre-filled | at 48 h | **It goes to the contract administrator the day you approve it** |

On this job that mechanism would have turned €18,400 of nothing into €18,400 of arguable. That is the whole difference between a claim you present and a claim you withdraw.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
