Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. *A delegation of signature is the mayor's order entrusting a named officer with the power to sign listed acts, for a stated term.* **It is a written mandate, capped, dated and withdrawable with a word — and that is what makes it possible to say yes without giving anything up.**

The counter acts, and their volume

Act	Annual volume	Covered by the delegation in force	Added by the draft order
School and after-school enrolment certificates	**3,900**	**Yes**	—
Acknowledgements of receipt of claims	**2,800**	**No**	**Yes, by name**

Act	Annual volume	Covered by the delegation in force	Added by the draft order
Summons to appointments and committees	**1,700**	**No**	**Yes, by name**
Total	**8,400**	3,900	**4,500**

What the draft order carries

Clause	Content
List of acts	**Closed and named: acknowledgements of receipt of claims, summons to appointments and committees. No act is added without a new order**
Designated officer	**By name, with their post — and their deputy in case of absence**
Term	**One year, with the end date stated on the order**
Withdrawal	**Revocation by the mayor, with no reason to give, taking effect immediately**
Publicity	**Publication and display, like any mayor's order**

What the agent assembles, act by act

Element	Where it comes from	What stays blank
Body of the act	**The department's template in force**	—
Resident's identity and address	The file's documents	—
File reference and issuing department	**Resident relationship system**	—

Legal notice (in French): bluelemonagent.ai/mentions-legales

Element	Where it comes from	What stays blank
Date of signature	—	**Left blank — entered on the batch**
Signatory's name	—	**Left blank — the delegated officer**

What it shifts, across the year's 8,400 acts

Stage	Before	After	Who does it
Assembling an act	**6 minutes**	**40 seconds**	The agent prepares
Signature	**One act at a time, between two residents**	**In batches of 50, 3 minutes a batch**	**The delegated officer**
Handing a certificate to a resident	**4 days**	**The same day, at the counter**	**2,100 direct handovers over the quarter, with no return for a wrong reference**

> **The draft order fits on one page and adds no act the mayor has not named. Once signed it takes effect the next day** — and the counter's mornings go back to the residents standing in front of it.
