Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **An observation rejected fifteen times says the agent's rule is bad, not that the user is wrong.**

Item	Kept?	What it allows
Every observation, its date and reason	**Yes**	**Knowing what was seen**
What a human did with it: handled, rejected, ignored	**Yes**	**Correcting the agent's rule**
Previous value of every corrected field	**Yes**	**Undoing in one click**
Merges and their survivorship rule	**Yes**	**Making every merge reversible**
Messages sent as they went out	**Yes**	**Answering the recipient**
Objections	**Yes**	**GDPR art. 21**
Records created per salesperson	**Not by default**	**Lawful — see below**

Item	Kept?	What it allows
Handling time per person	**Not by default**	**Lawful — see below**
Rejection rate per person	**Not by default**	**Lawful — see below**

What the rejection trace has already shown

Finding	Value
Records created this year	**1,240**
"Contact origin" field filled with the same value	**900 times**
Explanation	**Mandatory field whose list does not contain the right answer**

> **That is not carelessness.** The trace of rejected observations showed it before anybody suspected it.

If you want individual indicators

They are **lawful**. The agent supplies **the prior information notice** (art. L1222-4), **the works council consultation file** and **a proportionate scope**. They are simply not produced by default.

For the company to settle

Individual indicators wanted, if any: _____

Retention period for observations: _____ months

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
