Leisure centre charges — 4 resolutions

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

2019 to 2025 · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **This document draws no conclusion about 2027 charges.** Indexation resuming is what the text says; what the authority decides is another matter.

Resolution	Date	Subject	Effect on indexation
2019-047	14/03/2019	Income-banded charging introduced, 5 bands	—
2021-118	**09/11/2021**	**Annual indexed uprating**	**Automatic indexation established**
2023-032	21/02/2023	Moved to 6 bands	Unchanged
2025-091	**16/09/2025**	**Exceptional uprating**	**Indexation suspended for 2026 only**

The suspension covers 2026 only. The indexation established in 2021 therefore resumes in 2027, absent a further resolution. The due date was recorded nowhere on

file; it is now tracked.

What the text produces on its own, year by year

Year	Indexation	Basis
2026	**Suspended**	Resolution 2025-091
2027	**Resumes automatically**	**Resolution 2021-118, never repealed**

It is neither a problem nor a solution: it is a fact better discovered in August 2026 than in January 2027, when the charges have already been billed.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
