Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **This document does not conclude that anything is irregular.** It records an absence of trace — the transmission may have happened without the receipt being filed, and that is the first thing to check.

What is verified, and what is not

The legal point, quoted and not interpreted

Article L2131-6 of the French local government code: the State's representative in the department refers to the administrative court the acts they consider unlawful **within two months of their transmission**.

> **Without a transmission, that period has not begun to run.** That is a fact, and it is written here with no conclusion: what the authority draws from it is for the authority and, where appropriate, its legal advisers.

The check, in two steps

#	Step	Who	What it establishes
1	Query the transmission system for the period	Chief executive's office	Whether a send occurred without the receipt being filed
2	If no send: contact the legality review service	**Mayor**	What follows

Result of step 1: ☐ send found, receipt to file · ☐ no send found · **checked on** ...../...../..... **by** .....

> **The agent transmits nothing.** Transmission is an act of the authority, it is dated, and it has effects — including starting a clock.
