Where users' documents live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Hosting, access, retention · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **A France Services centre is not the agency: it is the support.** It therefore has no reason to build a permanent file on its users — **and the architecture is designed to stop it doing so.**

The two possible routes

Route	What it guarantees	When to choose it
Local inference	**The model computes on a machine on your premises; the content of a tax notice crosses no external network**	Premises with a lockable technical room
Isolated resource hosted in France	Environment dedicated to your centre alone, under French law, **no pooling with any other France Services centre**	Standard case

What is guaranteed in both cases

Guarantee	Scope	How it is verified
Hosted in France, under French law	All user data	Hosting contract
0 data outside the European Union	Documents, logs and backups	**Outbound flow log**
Architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity	All user data	No subcontractor subject to US law
No data used to train a model	Every document read	Contract clause and log
Encryption in transit and at rest	All documents	Go-live acceptance testing
Role-based access	**The front-desk officer sees the diary, not the documents handed in**	Tested role by role
Logging	Who opened what, when, what was approved	Access log

Retention periods — the question data protection always asks

Item	Period	Reason
Documents handed in to prepare a procedure	**Deleted as soon as the summary is issued, at the latest within 30 days**	**The centre is not the agency**
Summary issued	Kept for the duration of case follow-up	Allows support to be resumed
Reasons for visits, without names	Activity statistics	Report to the community council

Item	Period	Reason
Access log	The traceability period set in the contract	Oversight and human supervision

The notice displayed in the waiting room is kept current and re-dated at every change: what is processed, by whom, for how long, and how to ask for deletion. **An information notice is written once and quietly goes out of date** — this one carries its date.

Route chosen by the centre (local inference / hosted in France): _____

Display notice reviewed by data protection on: _____

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
