Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **This document is written to be re-read alone, at home.** One action per line, everyday words, no abbreviations — **it is the form, not the content, that decides whether the user will manage.**

What to do, in order

Step	What you do	Where	How long
1	**Create your account, or sign in with your national digital identity**	Vehicle registration agency's site	10 minutes
2	Open the « change of address » procedure	Same site	2 minutes
3	Fill it in and submit	Same site	15 minutes

Step	What you do	Where	How long
4	**Write down the tracking number that appears**	Keep it safe	1 minute

> **One user in two already holds a national digital identity without knowing it** — through tax, through health insurance. **Checking that first saves creating one more account and one more password.**

The papers to get ready

Paper	What it is really called	Checked today?
Your current vehicle document	Vehicle registration document	**Yes — shown at the desk**
A paper proving where you live	Proof of address less than six months old	**Yes — four months old, it is valid**
Your identity document	National identity card or passport	**Yes**

The three traps in this procedure

Trap	What happens	How to avoid it
Proof of address more than six months old	The application is rejected after several weeks	**Checked at the desk before filing**
Missing transfer code	Blocks the procedure if the vehicle was just bought	Ask the seller before starting
Used name different from civil status	The application matches no record	Enter the name exactly as on the identity document
