Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **An unreadable document is re-scanned at the front desk in forty seconds and re-read straight away — 46 times this quarter.** The figure entered on the form comes from the payslip, never from a calculation: **a reconstructed figure is the one that would get the case rejected six weeks later.**

What was read in the folder

Document	Recognised?	Needed for this claim?	Note
Tax notice	Yes	**Yes**	Relevant year
Signed tenancy agreement	Yes	**Yes**	Signed by both parties

Bank details	Yes	**Yes**	Legible
Entitlement certificate	Yes	**No**	Irrelevant to this claim

What is missing, and what it would have cost

Missing document	Why it is required	Consequence had the case been filed without it
Declaration of employment situation since the contract change	The calculation rests on the current situation	**Case returned within six weeks, to be redone entirely**

The pre-filled form — every field carries its source

Field	Value entered	Document it comes from
Address of the property	Filled	Tenancy agreement
Net rent amount	Filled	**Tenancy agreement — not the rent receipt, which includes charges**
Bank details	Filled	Bank details slip

> **Building a case spanning several agencies drops from 100 % to 20 % of the time it took — 2 h 30 becomes 30 minutes.** Across 24 cases a month, **48 hours returned to the service. The lead adviser reviews and approves before hand-over: always.**
