Three paths, the procedure filed the same day · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **All three paths reach the same result: the procedure filed the same day — 61 out of 67 last quarter.** What changes from one path to the next is the hand that validates, **and a dated written act always says which.**

The three paths

Path	Who keys in	What is written	When to use it	Cases this quarter
1 — the user types, the adviser guides	The user	Nothing	**Four cases in five**	**48**
2 — a mandated relative	The relative	**Written act signed by the user: who acts, for which procedure, until when**	The user comes accompanied	9

Path	Who keys in	What is written	When to use it	Cases this quarter
3 — the public official keys in before the user's eyes	The adviser	**Written, dated mandate limited to that procedure, filed with the case**	**Tremor, illiteracy, eyesight**	4

What each path guarantees

Guarantee	Path 1	Path 2	Path 3
The user knows what was filed	Yes	Yes	Yes
A written act protects the public official	Not applicable	**Yes**	**Yes**
The user will manage alone next time	**Yes**	Partly	No
The AI agent holds a login	**No**	**No**	**No**

What became of the 67 requests this quarter

Outcome	Number	Time
Procedure filed the same day	**61**	Within the visit
Document missing, appointment booked	6	**6 days on average**
Left without a solution	**0**	—

> **The single mandate template is written, dated and approved by the manager: every mandate now carries its end date.** Two mandates drafted by hand this quarter carried none — **and that is exactly what the template settles, since a mandate with no term is a mandate nobody can withdraw.**

Single mandate template approved by the manager on: _____
