Business plan — the organisation's template filled in

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

11 sections · bicycle repair and sales workshop · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. The founder, her project and her figures are invented. **Every line carries the origin of what fills it: the founder, the organisation's cohort, or a dated official source.**

The eleven sections and their source

Section	State	Origin of the content
1. The founder and her background	Filled	Questionnaire of 12/09
2. The activity and the offer	Filled	Questionnaire of 12/09
3. The local market	Filled	Founder + public data quoted
4. Identified competitors	Filled	Founder

Section	State	Origin of the content
5. The premises and their location	Filled	Founder, proof received
6. Production capacity	Filled	**Founder: 12 repairs/day, 4 days/week**
7. **The ramp-up**	Filled	**Organisation's cohort: 9 months in median**
8. The regime under consideration	Filled	**Official page, with its update date**
9. **The owner's pay**	**Empty, deliberately**	**The founder's decision, in front of the adviser**
10. **The capital put in**	**Empty, deliberately**	**The founder's decision, in front of the adviser**
11. The launch calendar	Filled	Founder + cut-off calculated

> **Two boxes stay empty and will stay empty.** The pay an owner draws and the capital they put in are not data to be filled in: they are decisions, and a pre-filled box on those two lines steers a choice that does not belong to the tool.

Section 7 — the only line where the agent contradicts the founder

Assumption	What the founder says	What your 37 files say	What is written
Ramp-up period	**3 months**	**9 months in median**	**9 months, shown as a cohort assumption**
Repair capacity	12 a day, 4 days	Consistent with the cohort	12 a day, 4 days

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Assumption	What the founder says	What your 37 files say	What is written
Share of refurbished-bicycle sales	A third of the activity	Not documented in the cohort	**A third, marked « not compared »**

An assumption that cannot be compared is flagged as such rather than matched to a cohort that does not cover it. Across 37 specialist retail files, none combined repair with resale of refurbished goods: comparing it would be false precision.

The point to look into before filing

Question	What the agent supplies	What the adviser establishes
Does the activity require a professional qualification?	**The official page listing the activities concerned, and its update date**	**Whether the founder's activity falls within it — and the documents that follow**

Adviser's finding on professional qualification, dated and signed: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
