Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Every line is checkable against one of the municipality's logs** — the only way to hold a review in front of a council. **The measurement covers queues and lead times, never what a named member of staff does.**

The 940 hours, item by item

Item	Annual volume	Before	After	Hours returned
Committee dashboards	**32**	**15 h 36 of consolidation per dashboard (60% of 26 h)**	**4 h 40 (18%)**	**349 h 26**
File cross-references	**240**	**1 h 09 of reconciliation (23% of 5 h)**	**30 min (10%)**	**156 h 00**

Item	Annual volume	Before	After	Hours returned
Figure requests	**1,460**	**32 min of keying (8% of 6 h 40 of circuit)**	**24 min (6%)**	**194 h 40**
Statutory reports	6	38 h of gathering and formatting out of 62 h	11 h	162 h 00
Monthly budget positions	12	9 h	2 h 30	78 h 00
Total	—	—	—	**940 h 06**

940 h 06, rounded down: 940 hours. On the statutory working-time basis — **1,607 hours a year, 151.67 hours a month, 35 hours a week** — that is **more than six months of work**, or **more than twenty-six weeks**, returned to a nine-person department. **Rounding is taken downwards:** a gain rounded up is a gain an elected member can dispute in the chamber. **No post cut, no post created.**

Lead times held

Lead time	Before	After	Volume concerned
Figure request from an elected member or a department	**6 days**	**Within the minute**	**1,118 of the 1,460 requests — the 11 indicators**
Request outside the 11 indicators	6 days	**File assembled within the minute, human answer the same day**	342 requests
File cross-reference	5 h of work spread over 3 days	**30 minutes**	240 requests

The budget orientation report — 11 indicators already kept up to date

The budget orientation report is provided for by article L. 2312-1 of the French general local authorities code. In municipalities of more than 10,000 inhabitants, it covers in particular the expected trend in the structure of headcount and staff costs, in the content set by article D. 2312-3 of the same

code. The 11 corresponding indicators are extracted, dated, and accompanied by the plain-language query that produces them, so that an elected member asking where a figure comes from gets the answer in the sitting. **The report is still written and presented by the mayor: it is an act of the authority, and nothing the agent produces stands in its place.**

The next step proposed — a protocol, not a promise

Stage	Arrangement	What is measured
Current situation	**340 departmental spreadsheets reconciled once a year, at closing**	**Number of corrections discovered at closing, and their value**
Year ahead	**Monthly reconciliation for the 3 departments keeping the most spreadsheets — 118 of the 340**	Corrections discovered during the year
The other 11 departments	**Annual reconciliation, unchanged**	**Comparison group**
Decision	—	**The municipality decides on the difference measured at home. If the difference is nil, it will hear it from the agent.**

Review presented to the council by the finance councillor, on: _____

Three departments retained for monthly spreadsheet reconciliation: _____
