Comparison and recommendation

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **A comparison with no recommendation wastes everybody's time.**

The five elements compared for each option

Element	Why it weighs
Skills required	**Determines who you can hire**
Maintenance cost	**Paid every year**
People at your end who know it	**The most often forgotten figure**
Frequency of breaking changes	**The hidden cost**
Cost of leaving in three years	**Never calculated beforehand**

What the agent adds if asked

A reasoned ranking, with the option it would pick and why. **That is not an abstention.**

What stays a resources decision

A technical framework **determines who you will be able to hire for five years**, and what that will cost.

What the agent flags about itself

Finding	Value
Libraries added this quarter loading a third-party call	**3**
Introduced by the agent	**2**

> **Nobody else would have seen it.**

For the company to settle

Framework chosen: _____

Who settles the choice: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
