Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The agent does not say it should have been hand-written**: a proven library handles cases you discover at the worst moment.

| Element | Value |
|---|---|
| Weight in source | **340 KB** |
| **Weight actually served, after compression** | **78 KB** |
| **Functions called** | **1** |
| **Call sites** | **3** |
| **Library's last release** | **14 months ago** |

> **The last row is always missing from this kind of decision.** An unmaintained library costs little while nothing changes around it, and a great deal the day something does.
