Draft alert and update of the procurement guide · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document — the decree staged here, the procurement exercises and the amounts are **invented for the demonstration**; in service, the agent cites the real text with its official link and takes the amounts from your buyer profile. **Nothing is sent:** the alert and the 4 guide paragraphs await the signature of the head of the documentation service.

The three dates and the addressee — the header of every alert

Element	Value	Why it is at the top
Date of publication	**Tuesday the 12th, Official Journal**	It places the text; it says nothing about what has to be done
Date of entry into force	**1st of next month — in 30 days**	**This is what the service looks for first, and it is what the 5 late texts were missing**

Element	Value	Why it is at the top
Deadline for the service to act	**The 17th — fifteen days before entry into force**	**So that the 7 exercises concerned are re-checked BEFORE they are published**
Named service	**Shared procurement team — 6 buyers, one named officer**	**An alert with no named addressee is an alert nobody picks up**
Acknowledgement expected	**From the named officer, before the 17th**	**The measurement covers what ARRIVED, not what was sent**

The checking already done — 23 exercises in preparation, 7 affected

Exercise	Subject	Estimated value	Sponsoring department	Publication expected	Position
2026-041	Cleaning supplies for sports facilities	**€72,400 excl. VAT**	Sport and facilities	**The 22nd — before entry into force**	**Old regime**
2026-043	Tree-pruning services on community roads	**€88,600 excl. VAT**	Highways	**The 26th — before**	**Old regime**
2026-044	Maintenance of pumping stations	**€64,900 excl. VAT**	Water and wastewater	**The 29th — before**	**Old regime**
2026-047	Supply of underground containers	**€96,200 excl. VAT**	Waste	**The 4th of next month — after**	**New regime**

Exercise	Subject	Estimated value	Sponsoring department	Publication expected	Position
2026-048	Feasibility study for an interchange hub	**€78,500 excl. VAT**	Transport	**The 9th — after**	**New regime**
2026-051	Waterproofing works — covered hall	**€81,300 excl. VAT**	Buildings	**The 12th — after**	**New regime**
2026-052	Client-side support — local plan revision	**€69,700 excl. VAT**	Planning	**The 18th — after**	**New regime**
Total affected	**7 exercises out of 23 in preparation**	**€551,600 excl. VAT**	**7 departments**	**3 before, 4 after**	**Two separate lists inside the alert**

> **Three exercises are due to be published before entry into force, four after: those are not the same rules, and they are two separate lists inside the alert. That is the distinction the procurement team would have had to rebuild itself, exercise by exercise, from a text read at speed. It is done, it is dated, and it carries the estimated value and the sponsoring department of each — so the named officer can check it rather than redo it.**

*« **Monitoring alert — public procurement — action required before the 17th.***

***What changes:** the procedure thresholds for public contracts change. **From when:** the 1st of next month. **What you must do, and by when:** re-check, before the 17th, the 7 exercises in preparation whose estimated value falls in the affected band.
