Assessment of the « finishing and varnishing » unit

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

6 risks rated · each with its dated fact · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **No rating rests on an impression**: each links to the dated fact behind it.

The six risks and what supports them

Risk	Rating proposed	Dated fact behind it
Exposure to solvent vapours	**High**	**9 reports in 7 months + 2 safety data sheets**
Fire and storage of flammables	**High**	**Small fire controlled on 12 February, workshop logbook**
Awkward postures when sanding	Medium	4 reports, 3-day absence in October
Noise	Medium	2021 reading on an equivalent machine

Risk	Rating proposed	Dated fact behind it
Flying particles	Medium	2 reports, sander manual
Handling panels	Low	1 report, unit weights recorded

What is missing, and is not filled in

There has been no exposure measurement in this workshop since it opened. The high rating for vapours therefore rests on reports and product sheets. **That is solid enough to act on; it is insufficient to choose between two technical solutions** — in particular to size an extraction system.

The protocol proposed to settle it

Step	What it requires	What it brings
Exposure measurement at 3 finishing stations	**Half a day of organisation**, under normal production conditions	**A demonstrated rating instead of a defensible one**
Carried out by	The occupational health service	A competent, independent third party
Next	Sizing of extraction at source	**Unblocks the rank 6 action**

Ratings retained by the employer: _____ · Approved on _____

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.
