Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **These three approvals do not prove the course is eligible today.** They prove it was, and they give the funder enough to answer quickly.

Reference	Approval date	Title	Duration	Content	Amount funded
ACC-2024-0417	12/04/2024	Team management	21 h	Identical	€1,620
ACC-2025-0233	06/03/2025	Team management	21 h	Identical	€1,620
ACC-2025-0891	19/11/2025	Team management	21 h	Identical	€1,620

The most recent approval dates from November. Nine months have passed, and funding criteria change during the year. That interval is what justifies the question, not

> any doubt about the content.

The price, as it appears in all three approvals

All three fundings carry €1,620, the catalogue price. None carries €1,480. That is not an argument against the discount of 18/07 — it is one more element to settle before filing an application showing a different figure.

The confirmation request

"We are preparing a funding application for the September 2026 "Team management" session, of 21 hours, with content identical to our earlier sessions.

This course has been funded by you three times, under references ACC-2024-0417, ACC-2025-0233 and ACC-2025-0891, the most recent in November 2025.

Could you confirm that the funding conditions are unchanged, or tell us what has moved since?"

> **The question is asked with its references.** A funder who can find three files it approved itself answers within days; a funder asked "is this eligible?" answers with a form.
