Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The calculation can be redone on the school's own logs. Statutory working-time basis: 1,607 hours a year, 151.67 hours a month, 35 hours a week — always rounded down.**

The calculation, item by item

Item	Volume retained	Before	After	Unit gain	Time given back
Preparing a differentiated sequence	**612 sequences**	**5 h — 100 %**	**54 min — 18 %**	**4 h 06**	**2,509 hours**
Writing a form's report comments	**540 sets**	**1 h 15 — 50 %**	**18 min — 12 %**	**57 min**	**513 hours**
Answering a recurring parent question	**6,400 messages**	**3 min 24 — 17 %**	**1 min 36 — 8 %**	**1 min 48**	**192 hours**

Item	Volume retained	Before	After	Unit gain	Time given back
Total	—	—	—	—	**3,214 hours**

Conversion	Statutory basis	Result
In working years	**1,607 hours**	**Exactly two working years**
In months	151.67 hours	More than twenty-one months
Per teacher	41 teachers	**78 hours over the year, a little over two hours per teaching week**

No post is cut, none is created. It is teacher time given back to the classroom, at identical staffing — **and what the governing board will judge is not the number of hours, it is what those hours produced.**

What is NOT in the total

Real gain	Measure	Why it is not counted
Review board minutes	45 min → 8 min over 54 boards	**Outside the three measured items**
Preparation of the 54 boards	51 boards started on time against 34	Outside the three measured items
Administrative deadlines	0 missed out of 63 tracked	Outside the three measured items

What those hours produced

Measure	Before	After
