Formality file — ready to file

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

5 checks passed · 1 discrepancy fixed · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Filing awaits the office's go-ahead**: the office decides what goes out.

The five checks run before the file is presented

Check	What it compares	Result
Cadastral references	Deed × cadastral extract × mortgage search	**1 discrepancy — fixed**
Description	Deed × cadastre, down to the character	Consistent
Parties' civil status	Form expected by the registry	Compliant
Chain of ownership	Earlier registration references	**Complete**
Annexed documents	List, pagination, signatures	Complete

The discrepancy caught

The **area of one plot** differed by a single digit between the old title and the current cadastral extract. **It is the ground for six of the office's fourteen rejections last year** — fixed before filing, it costs only the minute spent checking.

Where the other files stand

File	State	Since
Sale — this week's file	**Ready to file**	Wednesday
2 files filed	**Formality registered**	Monday and Tuesday
1 file filed	Under examination	Tuesday

Go-ahead to file given by: _____ on _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
