Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration: the company, its clients and its invoices are invented. **112 active recipients, 98 resolved, 14 to settle.** Three of the fourteen are not a gap: they belong to another flow.

Cause	Lines	What is needed	Who settles it
Group with several establishments — the registration number exists, the establishment to invoice is unknown	**5**	One question to the customer	**The customer**
Registration number of an absorbed company	4	Acquirer found for 3 in the public database, to be confirmed	Finance and administration
Client established outside France	**3**	**Nothing: e-reporting flow, not e-invoicing**	—

Cause	Lines	What is needed	Who settles it
Duplicate record — same registration number, two billing addresses	2	Merge proposed	Finance and administration
Total	**14**	—	—

The order of treatment, by weight and not by line number

Rank	Recipient (fictional)	Contract type	Share of amounts issued	Action prepared
1	Groupe Aravis Mobilité	Time and materials, 6 consultants	**17%**	**E-mail ready: which establishment to invoice**
2	Sernac Distribution	Time and materials, 4 consultants	**11%**	**E-mail ready: which establishment to invoice**
3	Ondaine Énergie	Fixed price, 3 milestones	**8%**	**E-mail ready: which establishment to invoice**
4	Groupe Bélier Santé	Time and materials + subscription	**5%**	**E-mail ready: which establishment to invoice**
5 to 14	Ten recipients	Subscriptions and fixed-price contracts	9% in total	Merge, acquirer confirmation, or removal from scope

> **Four e-mails deal with 41% of the amount issued.** Working through them in file order would take two weeks for an identical result. **The e-mails are drafted, not sent**: they go out under your name, after review.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
