> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **The Marchand family, Jules-Ferry school and the 96 requests are invented. No enrolment is made and no waiver is granted by the AI assistant: the file reaches the decision complete, sourced and dated, and it is an officer who signs.**

The file — nursery enrolment, September intake

Item	Contents of the file	Check	Source of the rule
Child	Camille Marchand, born 4 March 2023	**Age consistent with a nursery entry in September**	Departmental enrolment calendar, 12/01/2026

Item	Contents of the file	Check	Source of the rule
Responsible adults	Sonia Marchand and Yannick Deroy, separate residences	**Two addresses declared — which is what makes the missing document decisive**	Enrolment form, section 3
Family record book	Submitted on 14 April, legible	**Present**	Departmental document list
Proof of address	Energy bill of 2 March, 12 rue des Lilas	**Present, less than three months old**	Departmental document list
Vaccinations	GP certificate, 8 April	**Present — eleven compulsory vaccinations for children born since 1 January 2018**	**Art. L. 3111-2 of the public health code**
Court order setting the child's residence	**Mentioned in the form, not attached**	**MISSING — document request letter written**	Departmental document list
Catchment school	**12 rue des Lilas — Jules-Ferry catchment**	**Verified against the map applicable to the September requested**	**Resolution of 16/12/2025, art. L. 212-7 of the education code**

The document request letter, as it goes out

« Dear Ms Marchand, dear Mr Deroy, **your enrolment request for Camille in nursery at Jules-Ferry school was received on 14 April. The place is being held.** The family record book, the proof of address and the vaccination certificate have reached us and are in order. **One document is missing: the court order setting the child's residence, which you mention at point 3 of the form.** You can submit it through the family portal,

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

at the education desk or by email, **before 15 May. Your file is held until then.** If you have any difficulty obtaining this document, write to us: we will look at your situation with you. »

That last sentence is not a courtesy. Of the 194 files where a document was missing last year, **31 families never replied** — and in most of the cases recorded at the desk, the document was hard to obtain, not forgotten. **A sentence that opens a door rather than closing one is what separates a follow-up from a reprimand**, and it is unclaimed entitlement avoided.

Checking on submission — 2,302 files from the year rerun against the rule

Reason for incompleteness	Files	Share	What the family used to learn	What it learns now

Proof of address older than three months	**108**	4.7%	Three weeks later	**On the day of submission**

The 96 waiver requests — two regimes, two sources

Internal to Vaubrières	**62**	Sibling already at the school requested	**24**	**Resolution of 16/12/2025, art. 2 — dated local source**
Internal to Vaubrières	—	Care by a third party living in another catchment	17	Resolution of 16/12/2025, art. 2
Internal to Vaubrières	—	Continuity of schooling (final year of a key stage)	12	Resolution of 16/12/2025, art. 3
Internal to Vaubrières	—	Other grounds, examined case by case	9	Resolution of 16/12/2025, art. 4
Involving another municipality	**34**	**Falling within a case where the municipality of residence contributes to costs**	**21**	**Art. L. 212-8 of the education code**
Involving another municipality	—	**Outside those cases: agreement between municipalities required**	**13**	**13 letters drafted**

The distinction is not cosmetic. Within the town, **there is no national waiver rule: the catchment of each school is set by the town council, and the grounds for exception are those of your own resolution. A rule of caution is not a rule of law:** the assistant quotes your text, dated, and never a custom. **Between municipalities, article L. 212-8 of the education code matters**, because it determines the cases in which the municipality of residence must contribute to schooling costs — notably the parents' work commitments where their own municipality provides neither catering nor childcare, the child's state of health, and a brother or sister enrolled in the same municipality.

The file template the panel receives — two pages, identical for all 96

The request	Child, year group, catchment school, school requested, date of submission	Places the file in three lines
The documents	Checked, dated, missing ones flagged	**No file turns out to be incomplete in the meeting**
The applicable rule	**Article quoted, text reproduced, date of the resolution**	**A reasoned decision is a decision that holds**
The roll numbers	**School and year group requested, current as at the day of the panel**	**The figure always missing at the moment of decision**
Comparable decisions	**The last three panels' decisions on the same ground**	**A panel that contradicts itself from one year to the next is a panel that gets challenged**
The decision	**Blank box — completed and signed in the meeting**	**The decision belongs to the department and the elected member**

What prepared investigation gains: the **two weeks** of preparation become **half a day of reading**, and the panel sits on 96 files identical in form. **Assigning a person to an educational institution falls under point 3 of Annex III to the European AI regulation — the high-risk system regime. By preparing without pronouncing, the town gets the time saving without entering that regime**; should it one day wish to automate, the assistant brings it the conditions to be met, costed and written.
