Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. *Pre-assessment is everything that precedes the decision: checking the deadlines, gathering and checking the documents, cross-matching what must agree and drafting the letters.* **The decision itself is the classification of the accident as work-related.**

The state of the file

Element	State	Observation
Employer's report	**Received within the 48-hour deadline that applies to them**	Portal timestamp
Initial medical certificate	**Present, dated, attached**	**Type and date only — the content is with the medical service**

Element	State	Observation
Employer's reservations	**None made at this stage**	**The period for making them is still running — this is flagged**
Missing document	**Wage certificate**	**Without it, daily allowances cannot be calculated — request written, form named, example attached**

The employer's reservations are the observations by which they dispute that the accident happened at work or in the circumstances reported. Their presence or absence changes the handling: **it is therefore shown at the top, with the time left to make them.**

The timetable set

Deadline	Alert set
Deadline for opening the adversarial stage	**D−15, D−7, D−2**
Decision deadline	**D−15, D−7, D−2**

What remains with the authorised officer

Classifying the accident as work-related is decided and signed by the authorised officer, on the medical service's opinion, because it commits the body and is open to appeal. **It is handed to them in minutes: complete file, documents checked, deadlines met, and reasoning already drafted both ways. It is that signature that makes the decision reasoned and challengeable, therefore defensible before the employer and before the insured person.**

Pre-assessing a workplace accident report	**60 % of the file's time — 27 minutes**	**10 % — 4 minutes 30**	**3,750 hours across 10,000 files**

6,400 of the 9,400 reports arrive complete from the portal: those can be pre-assessed on receipt, without being asked for. **Six thousand four hundred files ready to decide the same morning.**
