The 24 reclamation files — their stage, their dates, what is missing

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Two regimes kept apart, every date backed by its document · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **No procedure is opened, no record of abandonment is drawn up, no order is made by the assistant. It keeps the dates, writes the drafts and flags what is missing; the decision belongs to the town council and the mayor.**

The two regimes, kept apart

Regime	What opens it	The time limit to respect	Source
Grant expired and not renewed	The term arriving with no renewal request	**Two years after expiry, during which renewal remains possible**	**Art. L. 2223-15 of the general local authorities code**

Regime	What opens it	The time limit to respect	Source
Perpetual grant in a state of abandonment	**Thirty years after the deed AND ten years after the last interment**	**First record notified and displayed, then a second record three years later**	**Arts. L. 2223-17 and L. 2223-18**

Where the 24 files stand

Stage	Files	What the assistant has prepared	What remains to be decided
Age conditions not yet met	**5**	**The date on which each will meet them, file by file**	Nothing until then
Conditions met, first record to be drawn up	**9**	**9 draft records on the service's template: condition observed, date, particulars**	**The record is drawn up by the department**
First record more than three years old	**6**	**6 draft second records**	**Then resolution and order**
First record with no trace of notification or display	**4**	**Files TAKEN OUT of the queue; renewed notification and display prepared, with its calendar**	**Resume the procedure at the right point**
Total	**24**	—	—

> **The 4 files taken out of the queue are the important point of this table. A reclamation whose notification is not proved is a reclamation a family can overturn** — and they would then learn of it through litigation rather than by letter. **This removal is not a delay imposed on the department: it is what the department would have lost.**

What each file carries — the complete chain

Data	Document that establishes it	Status across the 24 files
Date of the grant deed	Signed deed or page of the bound register	**24 of 24**
Date of the last interment	Register of grants	**24 of 24**
First record of abandonment	Record dated and signed	**10 of 24 — the other 14 remain to be drawn up**
Notification to the successors in title	**Acknowledgement of receipt or proof of posting**	**6 of 10 — the 4 missing had their files taken out**
Public display	**Certificate of display, dates of posting and removal**	**6 of 10**
Second record	Record dated and signed	**0 — 6 files in a position to have one drawn up**
Resolution and order	Register of resolutions, mayor's order	**0 — no reclamation pronounced this year**

The ossuary record — what it carries and why

Article L. 2223-4 of the French general local authorities code requires the municipality to have an ossuary, where exhumed remains are placed, and to keep a record of the names of those who rest there. The ossuary record is kept up to date name by name and date by date, with a reference to the original grant and to the decision that led to the placement. It is the record a family will come to consult in twenty years — and there is no way to reconstruct it afterwards. To date it carries **1,946 names**, of which **212 were linked back to their original grant this year**, during the indexing of the bound registers.

Files taken out of the queue: _____ / 24 — notification resumed on: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
