Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The calculation can be redone on the school's own logs. Statutory working-time basis: 35 hours a week, 151.67 hours a month, 1,607 hours a year — always rounded down.**

The calculation, item by item

Item	Volume retained	Before	After	Unit gain	Time given back
Pre-assessing a grant application	486 files	30 min — 60 %	5 min — 10 %	25 min	202 hours
Letter or reminder to a family	2,840 letters	8 min — 40 %	2 min — 10 %	6 min	284 hours
Termly billing of school meals	3 campaigns	24 h — 100 %	4 h 48 — 20 %	19 h 12	57 hours

Item	Volume retained	Before	After	Unit gain	Time given back
Total	—	—	—	—	543 hours

Conversion	Statutory basis	Result
In weeks	35 hours	More than fifteen weeks of work
In months	151.67 hours	A little over three months
Per person	2 people in the business office	271 hours each, that is more than seven weeks each

No post is cut, none is created. It is business office time given back to the school and to families, at identical staffing — **and what the governing board will judge is not the number of hours, it is what those hours produced.**
