Inconsistencies flagged — 340 over the year

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Five families, two documents side by side · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The agent matches and dates; it does not qualify.** A divergence may be a keying error, an undeclared change or a misread document — **and those three do not call for the same outcome.**

The five families, over the year

Family	Flags	What is handed over
Declared area different from the area on a document in the file	**118**	**The two documents side by side, the diverging line, the date of each**
Occupancy of premises inconsistent with circumstances declared elsewhere	76	The two declarations compared
Date of an event differing between two documents	64	Sale, death, move — the two dates side by side
Document produced earlier than the fact it is meant to establish	52	The date of the document and that of the fact

Family	Flags	What is handed over
Amount claimed unrelated to the tax being challenged	30	The amount claimed and the tax side by side
Total	**340**	—

What the office did with them

Action taken	Volume	Reading
Material errors corrected in the taxpayer's favour	**214**	**of which 96 on files where the taxpayer had asked for nothing**
Further document requested	78	Request written on the day of the flag
Passed to the competent service	48	**Under the rule set by the head of office**

The 96 corrections made without the taxpayer asking for anything are the hardest figure to obtain from an office and the easiest for a member of the public to understand: they are 96 households that received what was due to them without having had to claim it.

The three new flags, written and tested over five financial years

Proposed flag	Files over 5 years	Confirmed after examination	Recommendation
Premises declared vacant for more than three years yet showing water consumption on the municipal meter	**41**	**33**	Good yield, low volume
Two separate claims on the same premises for the same year	**27**	**27**	**Twenty-seven out of twenty-seven — to open first, not one useless flag**

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Proposed flag	Files over 5 years	Confirmed after examination	Recommendation
Gap of more than 20 % between the declared area and the average of comparable premises in the same building	**186**	**44**	**One in four: for the office to say whether that is worth the reading**

Every proposed flag comes with the number of files it would have produced, the share confirmed after examination and those it would have let through. The choice is made on figures, not on intuition — and it closes as quickly as it opens.

For the office to settle

Flag opened first: _____

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
