Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The assistant states in its first sentence that it is a digital assistant of the fund**, the European regulation on artificial intelligence requiring that anyone interacting with an AI system be told so. **The caller can ask for an officer at any moment.**

The sixteen subjects

Subject	What the answer carries
Amount and date of the next contributions instalment	The state of the account, with the calculation in plain terms
Where my file stands · which documents to provide	The stage reached and what the file is waiting for
Registering a birth, a death, a change	The procedure, the documents, the timescale
Sick leave and daily allowances	The procedure and the timescales — never a medical item, which belongs to the medical service
Retirement · career statement	The complete path and the date of the answer
Registering a new employee	The steps and the form
Farm relief support · social action	The conditions and the form — the two leading unclaimed entitlements
Contact details, certificates, and five other subjects	The list, named, with an example of each document

The rule of answering

On the progress of a file, the assistant says where it stands and what it is waiting for; on the outcome, it gives the conditions, the documents and the date of the answer. A member leaves with a complete path, **never with a forecast made in the fund's name, and never with a medical item.**

The gain

Measure	Before	With the agent
Unanswered calls	34 %	4 %, and those that remain arrive with the subject noted
Reply to a member's e-mail	8 days	Under 24 hours
Availability	Opening hours	Any hour, Saturday morning included — when a farmer is in front of his post

Thirty-five minutes of reading, once: the sixteen answers are written and await the service's approval. **As soon as they are approved the front line answers that same night,** and the record of what went out is handed over each morning.
