Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Support never replaces the procedure:** the member enters their own login and validates, **and it is that click which makes the procedure theirs, therefore valid.**

What makes a procedure be abandoned

Cause	Response provided
A missing document discovered mid-entry	**The list of documents to prepare BEFORE starting**
A screen not understood	Step-by-step guidance, screen by screen, with the reason for each question
No reliable mobile coverage	**Support by telephone, or at the desk with the documents**

Cause	Response provided
Administrative vocabulary	**Sixteen answers in everyday wording, written from the questions most often asked at your desks**

The quarter's result

Measure	Value
Procedures supported	1,240
Completed through to the end	**1,090**
Entry time	**26 minutes → 9 minutes**
Summary handed over at the end	**What was filed, what is left to do**

What is never entrusted to the agent

Element	Who holds it	Why
The member's credentials	**The member alone**	**The procedure stays theirs and can never be held against them**
The final validation	The member	It is what counts as filing

> **Digital drop-in proposed: one hour on market days, in the three towns covering 60 % of members.** Over a one-quarter trial, **84 people came, 52 of whom had never set foot in one of the fund's offices.**

To be settled by the fund

Towns and days chosen for the drop-in: _____
