Means-tested billing — May, 320 invoices, 21 movements

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Preparation submitted to the coordinator before issue · resolution of 14 October 2025 and attendance records · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **Nothing is issued:** the billing file and the letters are waiting for the coordinator's approval, **and it can all be taken back on a word for as long as nothing has gone out.**

How each line is calculated — and what grounds it

Component	Source	Article	What is checked before calculation
Means-test figure	Means-test file, fed by the document filed or the allowance fund lookup	art. 6	**Update date later than the last recorded change of circumstance**
Effort rate	Resolution of 14 October 2025, by number of dependent children	art. 6	Number of dependent children evidenced by a dated document

Component	Source	Article	What is checked before calculation
Hours booked on the contract	Signed care contract	art. 7	Contract active on the date of the period billed
Hours actually recorded	Setting's attendance records	art. 7	**No hour recorded twice across two rooms in the same slot**
Absence deductions	Certificate on file — start and end dates only	art. 11	Certificate present and covering the period deducted

The May run

Indicator	Value	Detail
Active contracts	**405**	165 in regular care, 240 in occasional care
Invoices to issue	**320**	—
Invoices ready	**311**	**Each with the means-test figure, the rate, the hours and the article applied**
Lines set aside for checking	**9**	**They do not go out as invoices, they go to review**
Total billed	**€41,286.40**	—
Variance against April	**+2.1%**	**Fully explained: 6 arrivals, 4 departures, 11 means-test changes — the 21 movements are detailed line by line**

The explained variance is what saves the most time at review. Today a 2.1% variance between two months has to be hunted down: contracts are opened, compared, movements found. **Here the 21 movements are given up front, with the document grounding each** — the review is about the movements, no longer about the search.

The year's 620 changes of circumstance — where the delay is created

Nature of the change	Annual volume	Effect on the rate	Handling today	Handling proposed
Birth of a child	**96**	Changes the number of dependent children, so the effort rate	Fed through on declaration, sometimes late	**Recalculated as soon as the document is filed, effect dated per the rules**
Separation, change of household	**114**	Changes the means-test figure	As above	**As above, with an explanatory letter prepared**
Return to work or job loss	**238**	Changes the means-test figure	As above	**As above**
Change of working hours	**112**	Changes the hours booked	Contract amendment	**Draft amendment prepared, signed by the coordinator**
Moving house	**60**	Changes residence, so the applicable rate	As above	**As above**
Total	**620**	—	**187 fed through more than a month late**	**Taken as they come, before the invoice**

> **Last year's 61 adjustments of more than €40 are the real cost of the delay.** An adjustment lands on a family budget that was not expecting it, six months after the change that caused it — **and those 61 letters are what generates the following month's phone calls. Taking the change as it comes makes them disappear**
