Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The calculation can be redone on the department's logs**, item by item. No figure in these results comes from anywhere other than the fund's own records.

The calculation, in three lines

Item	Annual volume	Unit time	Hours given back
Completeness check	**34,000 standard files**	**30 min → 9 min (60 % → 18 %)**	**11,900 h**
Anomaly detection	3,100 files controlled	22 min → 5 min (37 % → 8 %)	**878 h**
Answers to recurring questions	88,000 enquiries	5 min → 4 min (10 % → 8 %)	**1,467 h**

Item	Annual volume	Unit time	Hours given back
Total	—	—	**14,245 h**

> **These hours are officer time given back to the service, at unchanged headcount: no post cut, no post created.** This is not a staffing saving — **it is public spending that produces more entitlements served for the same running budget**, and it can be checked against your own logs.
