> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **Three automatic acts, not one more, each withdrawable with one word.** Everything else waits for a request.

The three automatic acts

Act	When	Reversibility
Completeness check on every file filed	**Overnight after filing**	**A document removed from a file disappears from the indexes at the same hour**
Flagging and rewriting a scale or required document amended by a board decision	**The day after the meeting**	**It is the act that took substantive corrections from 7.4 % to 1.1 %**
Weekly record to the head of department	Every Monday	**The only unprompted send, and it goes to her alone**

The four decisions that stay with a person

Decision	What the agent prepares	What the signature brings
Opening an entitlement	Conditions ticked, scale applied, reasoning written	**A decision reasoned, dated, traced and open to challenge**
Revising an entitlement	Breakdown of the change, dated effect	Same
Suspending an entitlement	Triggering event, documents alongside	Same
Recovering an overpayment	Month-by-month breakdown, share not attributable to the claimant flagged	Same

A decision with effects on a claimant never rests on automated processing alone. It is taken by a caseworker — and **a decision nobody had signed could be challenged by nobody, so it would be worth nothing to a claimant.**

The log, in figures

Indicator	Two quarters
Pre-assessments signed by a person	**5,660 out of 5,660**
Unprompted sends by the agent	**The weekly record only**
Out-of-role accesses	**0**

For the department to settle
