# Reading the documents — Kerbrat file

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

8 documents ticked, 4 values extracted, 1 gap flagged · fictional document

**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for the demonstration. The claimant, her documents and her amounts are invented. **Every value extracted carries the document and page it comes from**: it is verified with one click, it is not taken on trust.

## The 8 documents required by the scheme

| Document | Status | Observation |
|---|---|---|
| Signed claim form | **Present** | — |
| Latest tax assessment | **Present** | Expected year, legible |
| **Proof of address less than 3 months old** | **Missing** | **The document enclosed is 11 months old** |
| Rent receipt | **Present** | €612 — see consistency check |
| Bank details | **Present** | Holder matches the claim |
| Certificate of family circumstances | **Present** | Household of 2 |

| Document | Status | Observation |
|---|---|---|
| Proof of identity | **Present** | Valid |
| Tenancy agreement | **Present** | Consistent with the rent receipt |

## The values extracted and their source

| Value | Amount or data | Document and page |
|---|---|---|
| **Reference taxable income** | **€14,820** | Tax assessment, page 1 |
| Household composition | 2 people | Certificate of family circumstances |
| Monthly rent | **€612** | Rent receipt, “total due” line |
| Account holder | Same as claimant | Bank details |

## The two consistency checks

| Check | Result | Action taken |
|---|---|---|
| Bank account holder = claimant | **Consistent** | None |
| **Rent declared = rent on the receipt** | **Gap of €9 — €621 declared, €612 on the receipt** | **Flagged to the caseworker, both documents side by side** — swapped digits, not a false declaration |

**A gap is never settled by the agent:** it is presented with both documents and the scheme's rule in plain terms. **Here, the value retained changes the monthly amount by €3** — it is for the caseworker to say which one prevails.

## The summary handed to the claimant, at the counter

| Section | Content |
|---|---|
| What has been received | 7 documents out of 8, listed |

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

| Section | Content |
|---|---|
| **What is missing** | **Proof of address less than 3 months old — an example of an accepted document is attached** |
| By when | 15 days, with a reminder halfway through |
| What happens next | **Assessment on receipt, decision within the advertised 30 days** |

**The full check took three minutes at the counter**, against 30 minutes of back-office preparation. **The claimant left knowing exactly where she stood** — that is the difference between a file being tracked and a file being waited on.

**Request a demo with your own documents**

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
