Grid read from 1,940 decisions, trial on 80 letters · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. *A waiver of surcharges writes off all or part of the late-payment surcharges: it has to be asked for, it is not granted automatically.* **Which is why it passes by those who do not know it exists.**

The grid, as it reads in your decisions

Element	What it weighs in the decisions handed down
Returns up to date at the time of the request	Present in almost every grant
Debt cleared or plan kept	The second most discriminating element
No incident over the two preceding years	Clearly separates grants from refusals
Surcharges relative to the debt	Modulates the extent of the waiver

Element	What it weighs in the decisions handed down
All four together	**Explain 91 % of the 1,940 decisions of the last three years**

This grid is not invented: it is yours, as it reads in your decisions. It lived in your rulings without ever having been set down on paper; it has been since this morning. **The 9 situations out of 1,940 where two different decisions were handed down on neighbouring cases are documented** — which is what allows the tenth to be decided in full knowledge.

Unclaimed entitlement, measured

Finding	Volume
Contributors meeting the four conditions without ever having asked	**620**
Information letters written	620
Sent as a trial	**80**
Requests filed as a result	**63**
Waivers granted by the committee	**58**
Files directed to the support unit	5

What the information letter carries

Section	Content
What a waiver is	Three sentences, with no administrative jargon
The conditions	The four elements, in plain language
What the letter does not grant	**It informs of a right; the decision belongs to the committee**
The form and the deadline	Direct link, and the service's number

The rollout proposed

Wave	Volume	Expected effect on the committee
Trial	80	Done — 63 requests
Two waves a month apart	**270 then 270**	**About 200 extra requests over the quarter**
Handling those requests	—	**8 minutes instead of 40, the four elements already filled in: absorbed without an extra sitting**

> **58 companies that were entitled to something and did not know it obtained it.** Equal treatment stops depending on what a director happens to know about the administration: the hardest gain to cost, and the easiest to defend.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
