Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The review is presented in hours returned to control, not hours saved. A registry is not judged on its speed: it is judged on what it has verified.**

Where the 171 hours come from

Item	Page benchmark	Before → after	Monthly volume	Hours returned
Set of documents and notification	60 % → 10 %	3 h 10 → 32 min	45	118 h
Case summary for review	40 % → 10 %	48 min → 12 min	70	42 h
Monthly deadline count	100 % → 20 %	14 h → 2 h 48	1	11 h

Item	Page benchmark	Before → after	Monthly volume	Hours returned
Total				171 h a month

What those hours became

Measured effect	Value
Effective checking time per file	+44 %
Missing documents discovered late	41 last year → 9 flagged at recording this quarter
Register anomalies cleared	17 within five days, instead of several weeks
Real divergences caught on situations under thirty days	2
Time from « doubt » to « the registry can rule »	3 h 40 → 20 minutes

The two divergences caught under thirty days are the outcome everything else exists to produce. The time returned matters only because it funds that checking.

The figures that do not flatter the agent

Measure	Value	Real cause	What was done
False divergence alarms	3 out of 14	Abbreviated date format on older documents	Reading rule corrected; threshold deliberately left wide

Measure	Value	Real cause	What was done
Documents misfiled, first month	41 out of 2,300 — 1.8 %	One court's titles absent from the table	Table completed — 0.3 % last month
Documents unfiled, last month	7	Handwritten or crookedly scanned	Raised, not guessed at

Human supervision and traceability

Measure	Value
Entries made by a named officer	4,190 out of 4,190
Entries without an author	0
Decisions taken without human validation	0
Entries amended by an officer before being made	7.4 % — published as good news: the checking happens
External calls	0
Data outside the European Union	0
Automatic actions	3, annexed to the compliance file with their thresholds and dates
