And what it produces instead · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **The agent produces no assessment, no score, no profile and no ranking of detained people**, whatever the reason and whoever asks. **There is no function to switch off: it does not exist in the perimeter deployed.**

Why this is not a design precaution

Item	Position
Systems assessing individuals in criminal matters	**Are among the most tightly regulated uses under the European regulation on artificial intelligence, and some among those it prohibits**
Perimeter deployed here	**Strict documentary support — excludes them by construction**
Confinement of scope	**Defined at design, documented, logged and reviewed with the establishment**

What the agent produces instead — and what it often really answers

Output	Object	Number this month
Files warranting documentary attention	**Missing document, approaching deadline, divergence between documents**	**17**
Nearest deadlines	Ordered by days remaining	11 situations
Documents requested and never received	**With the age of the request**	**6, one of them 71 days old**

> **« This file is incomplete » is a documentary finding, verifiable with the document in hand. « This person warrants attention » is a judgement about someone. The first advances the registry's work; the second is neither its documentary remit nor the agent's.**

The full list of exclusions

Exclusion	Scope
Assessment, score, profile, ranking of individuals	**Absolute**
Sentence calculation	**Absolute — the registry settles, the judicial authority decides**
Producing a date	**Absolute — the agent copies a settled date across with its document**
Automatic notification	**Absolute**
Register entry without a named officer	**Absolute**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
