Deposit for a table with children — the three ways of doing it

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. The organisation, the files, the people and the figures are invented. **None of the ways of doing it was applied before the client chose.**

The house rule provides for a deposit **above 10 covers**. It does not say whether a child under three counts as a cover: that is the point that had not yet been configured.

The ways of doing it, put to the client

Way of doing it	What it brings	What it costs	Outcome
Count the people seated	The most protective reading	A deposit asked for on two menus that will not be paid	Set aside by the house

Way of doing it	What it brings	What it costs	Outcome
Count the billable covers	Simple to explain on the phone	The table of 11 ties up the room if it does not come	Set aside by the house
Seats occupied to trigger, billable covers for the amount	**The deposit exists and stays proportionate to what is sold**	Two counters to read instead of one	**Recommended, then approved**

How often the case arises

Period	Tables of 9 to 12 with children	Of which no-shows
Last twelve months	**27**	**6**
Of which the past season	11	3

The figure is what turns a one-off decision into a rule: **6 absences for 58 covers** are worth an entry in the deposit rule, and the house decides it knowing the volume.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
