Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. The association, its documents and its amounts are invented. **Every value extracted carries the document and page it comes from**: it is verified with one click, it is not taken on trust.

The values extracted and their source

Value	Amount or data	Document and page
Amount requested	**€4,200**	Application form, page 1
Forecast budget	€38,900 of costs, €37,660 of income	Forecast budget
Grants already obtained	€2,800 (municipality), €1,500 (federation)	Forecast budget, line 7
Members	412	List of members
Identification number	**Differs from last year's file**	Identification certificate

The three consistency checks

Check	Result	Action taken
Amount requested below the scheme's ceiling	**Consistent — €4,200 against a ceiling of €6,000**	None
Forecast budget balanced	**Imbalance of €1,240**	**The two lines at issue are flagged to the officer**

Check	Result	Action taken
Identifier consistent with the previous file	**Discrepancy**	**Declared change of registered office or typing error — both documents side by side, the officer settles it in ten seconds**

A discrepancy is never settled by the agent: it is presented with both documents and the scheme's rule in plain terms. **The ceiling compared is that of the version of the rules in force**, with the resolution that sets it and its effective date.

The summary handed to the applicant

Section	Content
What has been received	11 documents out of 12, listed
What is missing	**Profit and loss account for the last closed year — an example of an accepted document is attached**
By when	15 days, with a reminder halfway through
What happens next	**Assessment on receipt, listed for the quarter's committee**

> **The full check took four minutes**, against 25 minutes in the back office. **The applicant knows the same day what is missing** — that is the difference between a file being tracked and a file being waited on.
