Pre-assessment note — Sport for All

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Criteria ticked, amount calculated, comparable files · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **This note decides nothing:** it puts the file in a state to be decided. **The decision to award belongs to the competent authority, reasoned, dated and open to challenge by the applicant** — and it takes twelve minutes of reading.

The criteria of the rules, one by one

Criterion in the rules in force	Value in the file	Source document	Status
Registered office in the eligible area	Member municipality	Statutes, page 2	**Met**
Statutory purpose consistent with the scheme	Amateur sport	Statutes, page 4	**Met**

Criterion in the rules in force	Value in the file	Source document	Status
Grant ceiling respected	**€4,200 requested against a ceiling of €6,000**	Application form	**Met**
Closed financial year presented	**Document awaited**	—	**To be completed**
No double funding with the departmental grant	**Not verifiable from the file's documents alone**	Partial certificate	**Certificate to request — letter written, ready to go**

The criterion that cannot be verified is neither settled nor left hanging: the document to request is identified, the letter is drafted, it goes out with one click from the officer. **Over the quarter, that document came back within eight days in 9 cases out of 10.**

The calculation of the amount proposed

Element of the calculation	Value	Source
Amount requested	€4,200	Application form
Membership coefficient	412 members — band 300 to 500	**Scale in force, with its effective date**
Share of other funding	€4,300 already obtained	Forecast budget
Amount proposed	**€3,800**	**Every line of the calculation is displayed, none is aggregated**

The three comparable files of the last twelve months

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

File	Situation	Decision taken	Reasoning used
Association A	380 members, balanced budget	**Award €3,600**	Scale applied without adjustment
Association B	440 members, imbalance corrected during assessment	**Award €3,900**	Correction accepted, document provided
Association C	410 members, no-double-funding not evidenced	**Refusal**	**Document not provided within the deadline**

Comparable files are what makes assessment consistent from one month to the next without the officer having to remember. They come from decisions actually taken, not from a supposed doctrine.

What the note brings to the department

Measure	Before	After
Pre-assessing a file	**45 % of the time — 45 min**	**12 % — 12 min**
Across 6,400 applications a year	—	**3,520 officer hours**
Rulebooks whose criteria are set out line by line	3	**21, after two hours of rereading**

For the department to settle

The officer's position on the no-double-funding criterion: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
