Façade grants — 210 applications, one single grid

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Assessment on behalf of the municipalities · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **It is the same work as assessing a planning application:** documents to check, voted criteria to apply, a calculation to write and a decision to reason.

What is handed over for each application

Stage	Content	What it prevents
Completeness check	**Quotation, photographs, proof of ownership, tax assessment where the scale depends on it**	**A file that sleeps for want of one document**
Check against the voted criteria	Eligible perimeter, nature of the works, spending ceiling, scale	Case-by-case judgement

Stage	Content	What it prevents
Calculation of the amount	**Set out in plain terms under the line**	**It is the most challenged point — a written calculation is not challenged like an announced amount**
Reasoned draft decision	Both ways, with the documents to request if any are missing	A refusal that has to be rewritten

The quarter, measured

Measure	Before	This quarter
Applications assessed	—	**210**
Average assessment time	**11 weeks**	**3 weeks**
Applications lost along the way	**7 files passing the annual envelope's cut-off date**	**0**

What the agent noted without being asked

Finding	Volume	What is ready
Owners who could claim a second combinable grant under the voted rules	**34 out of 210**	**Information letter written, eight lines — unclaimed entitlement avoided, and money the municipality voted in order for it to be used**

What is proposed next

Extension	Annual volume	Measurement made before proposing

Individual wastewater treatment grants	**140 applications**	**Grid written from the voted award rules and run over last year's 140 applications: 128 would have been assessed with no further exchange**

210 applications put through the same grid, in the same order, with the same calculation: equal treatment is plain to the eye here. **The award decision belongs to the municipality — and it is handed back in three weeks instead of eleven, calculation written and reasoning drafted.**

For the service to settle

Grant schemes entrusted to the service for the next financial year: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
