Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. *Completeness is the check that every document required by the form is present; it does not judge the project, it records what has been supplied.*

What the agent does at the moment of filing

Stage	Duration	Result
Reading of the documents, plans included	immediate	Dimensions, scale, orientation and land registry reference read on the document and matched against the form
Comparison with the applicable schedule	immediate	The schedule differs with the type of permission applied for
List of missing documents	4 minutes	Exact title and what the document must show — not a number nobody knows
Filing receipt	immediate	With the period stated and the calculated due date, ready for signature

The number one defect of the service's files

Defect	Frequency last year	What it triggered
Plan without scale or orientation	212 times	A request for a further document, therefore a delay and a round trip
Elevation drawing missing	146 times	Likewise
Visual impact document missing	118 times	Likewise

The quarter, measured

Measure	Last year	This quarter	What it changes for the applicant
Files complete on filing	168 out of 312 — 54 %	299 out of 312 — 96 %	They know on filing day what is missing, instead of learning it three weeks later
Round trips	—	131 fewer	As many journeys avoided
Requests for documents sent after the first month	27	0	The deadline stays under the service's control

The time this moves

Item	Before	With the agent	Over the year
Completeness check of the documents	37 % of preliminary assessment time — 18 minutes 30	8 % — 4 minutes	324 hours across 1,340 files

The check applies to online filing too, before the applicant confirms: they correct it straight away instead of learning three weeks later that a document was missing, and the service receives a complete file rather than one to chase.
