

Substantive corrections — 14.1 % then 3.6 %

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

The figure that does not flatter the agent · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The figure is published by the agent itself**, with its measured cause and the correction that followed.

The figure, over two quarters

Quarter	Notes produced	Corrected on the substance	Rate
First	312	44	14.1 %
Second	331	12	3.6 %

The cause, measured and not supposed

Origin	Corrections	What had happened
--------	-------------	-------------------

7 municipalities under national rules and 3 rulebooks not up to date	26 out of 44	The text applied was no longer the right one — it was not an error of judgement
Site judgements	18 out of 44	Fitting into the landscape, intervisibility — only a visit settles them

Municipalities without a local planning document fall under the national planning rules, which read very differently from a local plan: those are other rules, and it is not the same reasoning.

What the agent did with it

Correction	Reach	Measurement made before proposing
3 missing updates incorporated	The rulebooks concerned	Every rulebook now carries the resolution that adopted it and its date
Carrying over every voted amendment	The night that follows the transmission of the resolution	The cause can no longer rebuild itself
Reading template for the national rules	7 municipalities	Run over the 96 files of those municipalities across two years: 89 would have received the analysis finally retained

The rule that holds the figure

Situation	What the agent does	Result of the quarter
Dimension missing from a plan	Requested, never assumed compliant	118 requests prepared, 104 answers back within eight days
Easement not found	Requested, never assumed absent	—

Situation	What the agent does	Result of the quarter
Value not read	Never written: what is missing, where the agent looked, who holds it	That is what makes 3.6 % a figure to rely on

The protection of the signature

Indicator	Over two quarters
Notes approved by an officer before the decision went out	643 out of 643
Corrections made before sending	56 out of 56
Corrections made after sending	0

The 18 site judgements become a list of points to check on site, written and submitted to the service: **9 of the 12 corrections of the second quarter already fell within it**. A note that says “this point is judged on site” sends the officer to the right place with the file already built — that is where his eye decides.

For the service to settle

Points to be checked on site as a matter of course: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
