Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The same question asked by two people in two municipalities under the same rulebook receives the same answer, with the same source cited** — equal treatment here is not an intention, it is the mechanical consequence of an answer written once and approved by the service.

The twelve recurring subjects

Subject	Questions a year	Source of the answer
File status	940	The assessment software — stage under way, opinions awaited and from whom, due date
Documents to supply	410	Schedule applicable to the project described

Subject	Questions a year	Source of the answer
Applicable period	290	Receipt and the municipality's rulebook
Display on site and third-party challenges	240	Service procedures
Notice of works starting and completion	210	Service procedures
<i>... and 7 further subjects, detailed in the full table</i>	190	Service procedures
Total covered	2,280 out of 2,900	The other 620 reach the officer with a drafted answer

What the agent does with questions outside the remit

Question	What the applicant leaves with
Connection to the water network	Name of the competent body, address, lead time
Tax question linked to the project	The department that handles it, and how to reach it
Any question outside the assessment service	A complete route, never an approximation given in the service's name

The gain, measured

Measure	Before	With the agent
Answering time	6 days	2 hours
Answer to a recurring question	8 % of preliminary assessment time — 4 minutes	6 % — 3 minutes, that is 48 hours over the year

Measure	Before	With the agent
Officer interruptions on the twelve subjects	All day long	0

Appointments, qualified before being booked

Measure	Quarter	Reading
Appointments requested	96	—
Answers given without an appointment	35	Answer within the hour — nobody travelled for nothing
Appointments held with the file ready on the table	61	Plot history, zone rulebook, documents filed, points to settle
People turning up without their documents	3, against 24 last year	Reminder the day before with the list
Waiting time for an appointment	18 days → 4	43 officer hours over the quarter
Referrals to the session of the Architect of the Buildings of France	9	Opinion obtained before filing rather than after

Two “pre-application” slots are proposed each week: of the 34 files refused last year, **19 carried a flaw that a twenty-minute conversation before filing would have corrected** — 19 refusals, 19 fresh starts, and as many deadlines consumed for nothing.
