Seven contracts with no liability cap

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No exposure is assessed.** The risk depends on what the contract has done, its value, the insurance and the other party's solvency — none of that is legible in the clause.

#	Signed	Annual value	Template used	Renewal
1	03/2019	**€210,000**	Yours, 2018 version	**11/2026**
2	09/2020	€96,000	Yours, 2018 version	03/2027
3	01/2021	**€144,000**	Yours, 2018 version	**10/2026**
4	06/2021	€38,000	Yours, 2018 version	06/2027
5	11/2021	€72,000	Yours, 2018 version	**12/2026**
6	02/2022	€51,000	Yours, 2018 version	02/2027
7	**03/2026**	**€84,000**	**Supplier's framework contract**	03/2027

The seventh is the only one raising a question. Signed after the change of practice, on a template that is not the company's — the other six are explained by their date.

The change of practice

Period	Contracts signed	With a cap
Before 2022	**6 of the 7 with none**	—
12 most recent contracts	**12**	**12**

Why ranking by renewal date

Moment	Difficulty of adding a clause
At renewal	**Low — the negotiation is open**
Mid-contract	**High — an amendment is needed**

Three of the seven renew before December. It is the only information in this document calling for short-term action, and it assumes no assessment of risk.

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
