Automatic renewal — window closed

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The agent does not say the renewal is settled.** There are situations where an automatic renewal clause does not operate as written, and none of them is settled by reading the article.

The clause, quoted

"*This contract renews automatically for one year, unless terminated by recorded delivery letter sent at least three months before its expiry.*"

Contract of 27/08/2021, article 11.2.

Element	Date	Computation
Contract expiry	**27/08/2026**	Stated at article 2
Notice required	**3 months**	Article 11.2
Last usable day	**27/05/2026**	Expiry less 3 months
Today	08/08/2026	—

Element	Date	Computation
Window closed for	**73 days**	—

> **What the agent provides beyond the clause: six months of correspondence with this supplier.** That is what an adviser asks for first, and assembling it after the fact takes half a day.

The four other auto-renewing contracts

Contract	Expiry	Notice	Window opens	Window closes
A	31/01/2027	3 months	—	**31/10/2026**
B	15/03/2027	6 months	—	**15/09/2026**
C	30/06/2027	3 months	—	31/03/2027
D	12/11/2027	2 months	—	12/09/2027

Contracts A and B close their windows in October and September. They are flagged now, that is, while the decision to renew or not can still be prepared.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
