Technical framework — where the council's legal files live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Local inference, read-only, verifiable reversibility · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **0 file document out of the council's network and processing in the EU targeted over 1,480 traced outputs. Each of these two measures can be checked on the authority's own log, without us.**

The two deployment routes, at the authority's choice

Route	What it means	What the authority gains
Local inference	**The model computes on a machine of the county council**	**A defence statement crosses no external network to be processed**
Isolated resource hosted in France	**An environment dedicated to Vallée-Haute, under French law**	**No pooling with another authority — the continuity of your service depends on no one else**

What protects the files, point by point

Protection	How it is checked
Read-only	**The technical account has no right to write — checked with one command**
No training on your data	**Neither ours nor a third party's**
Role-based access	**17 roles for 14 departments and 3 satellite bodies, 0 access outside role since go-live**
Separate pre-litigation perimeter	**The director and the three lawyers only, every opening logged by name**
Encryption	In transit and at rest
Hosting in France, under French law	**Architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity, including against a US player hosting in Europe**

The exit, verifiable before deliberating

Item	What it becomes the day the council stops
Index of the 2,340 opinions	**Deleted — it contained no opinion, only what was needed to find them**
Doctrine handbook, 127 dated points	**Stays with the council, office format, readable without us**
12 pages for residents, 4 purchasing family sheets, 163 first-line answers, 31 re-flagging notes	**Stay with the council**
Subscription legal database, document management, resolutions software	**Unchanged — no migration in, therefore none out**

The dry-run exit takes place at the end of the first quarter, in half a day: we switch off, we check that the department works exactly as before, we switch back on. **The least costly date is the first Friday after the June sitting — the department receives 3 referrals that day on average.**

Date chosen for the dry-run exit, settled by the chief executive: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
