Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The index contains no opinion: it contains what is needed to find them where they already are. The department's eleven years of archives have not moved by a single byte, and the technical account through which the agent reads has no right to write.**

What rereading the eleven years returned

The 34 outdated references of last year, and what produced them

The three time items, before and after

Item	Share of time today	Share of time with the agent	Over the year
Sourced research on a referral	**60 % — 3 h 30 out of 5 h 50**	**18 % — 1 h 03**	**410 referrals → 1,004 hours**
Following one watch area	**22 % — 1 h 46 a month**	**8 % — 38 minutes**	**11 areas → 149 hours**

Item	Share of time today	Share of time with the agent	Over the year
First draft instrument or statement	**30 %**	**12 %**	**190 instruments + 44 statements → 246 hours**

1,399 hours returned to analysis over one year, at unchanged headcount — three lawyers, a director, an assistant. **The calculation can be redone on the department's own referral records: that is what makes it defensible before a chief executive.**
