Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No amount is preferred over another.** Choosing between two diverging figures is an assessment judgement.

The two gaps, and what they are not

> **A gap between a reference income and payslips very often has an explanation.** It is flagged because the officer must see it, not because it is suspicious — and that sentence appears in the file, not only here.

What becomes of the gap

Flagged	Shown in the file, beside the two documents
Dealt with by the officer	**The gap disappears**
