Grounds maintenance contract — expiry

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

5 weeks · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **This document does not say whether the contract can be extended.** That belongs to procurement regulation; it is put to the procurement team, in one sentence.

The three dates that matter

Date	Event	Source
01/10/2022	Contract awarded	Form of tender
30/09/2026	**Contract ends, no renewal**	**Conditions cl. 3**
07/08/2026	Today — no tender launched	—

What your last three comparable tenders took

Tender	Published	Awarded	Duration
Building maintenance, 2023	14/02/2023	10/04/2023	**8 weeks**

Tender	Published	Awarded	Duration
Office cleaning, 2024	06/05/2024	24/06/2024	**7 weeks**
Highways maintenance, 2025	09/01/2025	27/02/2025	**7 weeks**

> **Five weeks remain, seven is the observed minimum.** That is not an impossibility: it is a two-week gap closed by a decision taken today rather than in a fortnight.

The question put to procurement

"The grounds maintenance contract ends on 30 September 2026, with no renewal clause (conditions cl. 3). No tender has been launched. Our last three comparable tenders took seven to eight weeks from publication to award.

Which route do you take: immediate launch on a compressed timetable, a replacement contract, or another solution?"

What the agent establishes, and what calls for your decision

Action	Performed?
Establish the dates from the contract documents	**Yes**
Measure past tender durations	**Yes**
Say whether an extension is possible	**No**
Draft an extension variation	**No**
Launch a tender	**No**

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
